Hi! I'm creative and audiovisual artist with experience in different types of productions. I started out my career as a post-producer working mostly for TV shows and films, until I became interested in the world of animation (2D | 3D) and videogame development. I received several awards related to: comic book jobs, Illustration, screenwriting and literary narrations. I consider myself a dynamic, multifaceted and dedicated artist. I've experience working in teams, individually and as freelancer. I'm a concrete and dynamic person, always open to new challenges.
